## Eurex, your liquidity hub for cleared FX

Unlock the potential of your FX portfolios by choosing Eurex, the ultimate liquidity hub for cleared FX instruments. Whether you want to mitigate counterparty credit risk, navigate uncleared margin rules (UMR), or optimize capital costs, Eurex FX provides the ideal solutions to access cleared FX liquidity.

### MAKE YOUR PORTFOLIO FUTURE-PROOF!

#### UMR

Eurex FX instruments help you navigate UMR by reducing uncleared exposure. Unlike OTC transactions, exchange-traded FX instruments do not count toward regulatory thresholds, and any exposure can be netted across counterparties.

#### SA-CCR capital requirements

Listed FX instruments boast the lowest capital requirements under the standardized approach to counterparty credit risk (SA-CCR) framework. This empowers banks to offer competitive prices, ensuring cost-effectiveness and trading efficiency.

#### Counterparty credit risk

Eurex's exchange-traded FX futures and options eliminate bilateral counterparty credit risks. Enjoy the peace of mind that comes with secured and transparent transactions, enhancing the safety and reliability of your trading endeavors.

## Bridging OTC and listed FX markets

#### Maintain OTC counterparties

Trade FX futures bilaterally with OTC counterparties to leverage OTC liquidity.

#### Expanding low-touch solutions

Join our growing network of pioneering dealer banks offering automated exchange-traded FX derivatives execution services.

#### Electronic access

Trade Eurex FX derivatives electronically across major OTC FX and RFQ platforms.

#### Cost efficiencies

Tap into cleared FX liquidity at a highly competitive fee from 3 USD per million.
