# Short codes and algoIDs can be uploaded using the new automated process. The existing manual process is not affected by the decommissioning of the Download Agent.

## Automated upload process via API Hub (new)

**Permission**

1. Go to „My Profile"
2. Select "Permissions"
3. Select "Technical Connection" and request the permission for Self Service Certificate Admin

**Process**

1. Go to „Technical Connection"
2. Select „API Hub"
3. You will see all available APIs. Select the
   - ALGO HFT Upload API and/or
   - Client Identification Upload
   - Create an "Application". Please refer to the user guide.
4. Once the application has been created, you will receive the API key, which is used to authenticate member's for being allowed to consume the API

## Manual upload process (existing - no changes)
